

**Amendments to the Specification:**

Amend paragraph [0018] as follows:

[0018] The filtration unit 5 optionally includes a supplementary cartridge 5.6, which contains a filter aid, for example, activated carbon, zeolite, lava rock, biocore or a man-made porous biological filtration material, or the like. As shown in the present example, the supplementary cartridge 5.6 can be spatially separated from the filter cartridges 5.1 by a partition 5.7. In other embodiments, however, it is possible for individual filter cartridges 5.1 to be replaced by a supplementary cartridge 5.6.
